1 mark for spelling

Read the following passage and answer the questions:

One of the most popular foods of all time is chocolate. People nowadays eat chocolate in many different forms. We eat chocolate candy, and we drink hot and cold chocolate drinks. The chocolate we eat today is made from a lot of different ingredients, but the most important ingredient is cacao bean.

The story of cacao bean and its long journey to supermarkets started hundreds of years ago in Mexico. Cacao trees need hot and humid weather, and they originally grew in the Yucatan Peninsula.

The Maya were the first people to eat cacao beans. They picked cacao beans from wild trees and cleared land to cultivate their own trees. They made a drink from cacao beans and exchanged the beans for other goods. Mayan merchants traveled north and introduced cacao beans to the Aztec people. Soon the cacao bean was part of the Aztecs' lives. They used it as a drink, even as money. With 10 beans, you could buy a rabbit. With 100 beans, you could buy a horse.

The Aztecs could not grow cacao trees because of the dry climate. When the Aztecs visited the Maya, they asked for cacao beans as a gift.
